PLL NEVER FIND ANOTHER, best made timothy or clover as com-

Yet, though her brow bears traces
Of trouble and of care,
To me my mother's fairs
The fairest of the fair.
So tender and forgiving,
As gentle as a dove,
Ah! I life were not worth living
Without my mother's love.

How often, when complaining Of life's perpisating care, When except there seemed remain Save countless like to bear, My mother's gentle chiding Hay turned my thoughts above, And roused a faith suiting In God's sedeeming love.

God bless my dear old mother!
Bright be each later year!
Fil never find another
Whom I may hold so dear.
Oh! how my life would alter,
If mother were not near,
And now my heart would faller
Without her words of cheer.

But leaving all theo. less out, we know that ontone succeed best on very ricb, fine soils, and very poorly on tiose of a poortough, tenacions nature; consequently, to make the crop profitable, a man needs to be careful in making a great power take the power out of the particular feeling, even among the larger to general feeling, even among the larger to great powers take the power out of the particular feeling, even among the larger to general feeling, even among the larger t

adapted to onion culture. We know of some quite extensive tracts within a hundred miles of New York Cdy, which are valued at \$1,000 or more an acre, simply on account of their adaptability to onion culture, the crop being almost certain, although the seasons may be very variable. These low, peaty soils, when well drained and manured, yield enormous crope, and are not affected to any considerable extent by droughts. Where low, moist soils cannot be obtained for onions, high, dry soils can be mide available by plowing deep and adding fertilizers in large quantities. Where lowers a man can find a ready market for onions at from 50c, to \$1 per bushel, he can well afford to spand \$100 to \$200 an acre in the preparation of the land. Of course, we do not suppose this to be an annual expenses the first thing the traveled in offer the surface of the first with the rest of the world. It is the first will carry on his enterprise, in conversation with a will carry on his enterprise, in conversation of the land. Of course, we do not suppose this to be an annual expense, but as a preparatory step for a permanent plantation. Fertilizers of some kind will need to be applied every year, but the cost need be but if not with the rest of the world. If the Gographical Society at Sorbonce.
